

Ceasar Wheel Printable

Instructions for Using the Caesar Wheel

Steps:

1. Carefully cut out both wheels (large and small) as well as the pointer.
2. Preparation:
 - Take the large wheel and poke a small hole directly in the center.
 - Repeat this step with the smaller wheel and the pointer.
3. Assembly:
 - Lay the large wheel flat on the table.
 - Place the smaller wheel on top, aligning both centers exactly.
 - Place the pointer on top of the smaller wheel.
 - Fastening: Attach all parts with a push pin so that the pieces can rotate freely.
